PROFILE

I'm an enthusiastic technology enthusiast. I'm 24 years old and I am from Mexico. I have loved computer science since I was a child, and my dream has always been to be a programmer and make a living from it. Working and learning from something you love makes everything easier.

SKILLS

- Web Design
- Django and Node in Backend
- React, Javascript in Frontend
- Tailwind CSS and Bootstrap
- JWT and Cookies Management
- Pages with SEO and high performance
- Strong Communication

EXPERIENCE

APPLICATIONS DEVELOPER - DJANGO, JAVASCRIPT

SICAP VIP

2022 - Present

I have worked from scratch on the renovation of an old web application into a modern and superior version using the Django framework. I have developed the backend, frontend, testing, documentation by myself.

- Fullstack application development focused on lending companies.
- Development with Django, Bootstrap and Javascript to code the interface.
- Relational and non-relational database handling
- Automatic generation of reports in PDF format
- Deploy in vercel
- Use of data science (Pandas, Sklearn) to predict results using artificial intelligence
- Focus on attractive and functional design with use of CSS and Javascript Vanilla libraries

EDUCATION

BACHELOR IN COMPUTER SYSTEMS ENGINEERING

Universidad de Guanajuato

2018 - 2023
